

Laboratory Exercise #1:
Data Identification and Grouping
CMSC127 – File Processing and Database Systems

A. What is the form used for? Determine what industry/organization uses such form.

→ The form collects travel preferences, booking behaviors, or patterns of the travelers, including the activities they prefer. This form is likely used by travel agencies, airlines, tourism boards, and other travel-related businesses to understand travelers' preferences and improve their services.

B. What is the purpose of having this many questions in the form?

→ The purpose of asking many questions in the form is to gather detailed insights and preferences from the travelers like their preferred destinations, travel frequency, preferred accommodations, transportation choices, and activities. All of this data is a significant help to tailor their services, enhance customer experience, and improve their marketing strategies as well.

C. Identify all the data fields present in the form.

1. Contact Information
2. When do you plan to travel next?
3. How far in advance do you normally book your trips?
4. What time of the year do you normally prefer to travel?
5. What region of the world is your most favorite place to travel
6. What hotel accommodations do you usually look for when travelling?
7. What activity level is most desired when traveling
8. What do you most look for as far as activities when traveling?
9. Do you use travel related sites when booking travel? These include sites for airline tickets, cruises, car rentals (examples: Expedia or Travelocity).

10. Do you travel mostly for business or pleasure?
11. What are your usual reasons to travel?
12. When it comes to airports, which do you dread dealing with the most?
13. What mode of transportation do you use for traveling purposes?
14. Who usually accompanies you on vacation?
15. Do you mostly travel to domestic or international areas?
16. Do you use a guidebook for traveling purposes? Which one do you use most often?
17. What is the longest trip you have been on?

D. Group the data fields that is being requested by the form into data groups based on their “relatedness” (meaning, there are certain data units that are more related to other data units compared to the others).

1. Personal Information

- Contact Information

2. Travel Planning & Preferences

- When do you plan to travel next?
- How far in advance do you normally book your trips?
- What time of the year do you normally prefer to travel?
- What region of the world is your most favorite place to travel?

3. Accommodation & Activity Preferences

- What hotel accommodations do you usually look for when traveling?
- What activity level is most desired when traveling?
- What do you most look for as far as activities when traveling?

4. Travel Booking & Resources

- Do you use travel-related sites when booking travel? These include sites for airline tickets, cruises, car rentals (examples: Expedia or Travelocity).

- Do you use a guidebook for traveling purposes? Which one do you use most often?

5. Purpose & Reasons for Travel

- Do you travel mostly for business or pleasure?
- What are your usual reasons to travel?

6. Transportation & Travel Logistics

- When it comes to airports, which do you dread dealing with the most?
- What mode of transportation do you use for traveling purposes?

7. Travel Companions & Destinations

- Who usually accompanies you on vacation?
- Do you mostly travel to domestic or international areas?

8. Travel History

- What is the longest trip you have been on?
